

About RISE...

RISE supports the development of a sustainable social enterprise sector in the South West of England.

We aim to ensure that social enterprises have access to high quality business support throughout the region by providing them with information and resources.

RISE helps them by drawing support organisations together to develop a programme of training and assessment for business advisors, and provide opportunities for networking, problem-solving and sharing of good practice.

We also provide a link to policy-makers in the South West and to national policy through the Social Enterprise Coalition.

You can contact RISE at:

Social enterprises are businesses with primarily social objectives whose surpluses are principally reinvested for that purpose in the business or in the community, rather than being driven by the need to maximise profit for shareholders and owners”
