

# CCH ANNUAL CONFERENCE 2019

10-11 May 2019

Chesford Grange,  
Kenilworth  
Warwick CV8 2LD

## Community Led Homes for All

**In an uncertain world,  
community led housing offers  
hope for the future.**

Not since the 1980s have there been such opportunities opening up for our sector. People and communities are tomorrow's builders and housing leaders – we need to ensure we take advantage of the opportunities available to our movement to develop **community led homes for all**.

Hear about the launch of our new **Community Led Homes** support programme and from the **Ministry of Housing, Communities and Local Government** and **Homes England** about the

Community Housing Fund. Funding is available to help housing co-ops and others develop new homes and to get people to support them to do it. Find out about new developments in **Berlin** and **Canada**; and have discussions with us about the practical ways your co-op or community led housing organisation could build more homes.

Hear from national homelessness charity **Shelter** about their report **Building for our Future** which identified what needs to be done to invigorate the social housing sector. And where else could you get the **Housing Ombudsman**, a solicitor, a repairs expert and an insurance expert all together in one room but at the CCH conference in the return of our ever popular **Ask the Experts** slot.

There will be the opportunity to network with many other housing co-op tenant members and professionals, along with the usual practical workshops aimed at helping you in your organisation. There will also be live entertainment after the gala dinner on the Saturday night.
