

KEY MISSING DOCUMENTS

We fear that all key NFHC documentation is lost. If someone has salted away any of the following, please, please get in touch:

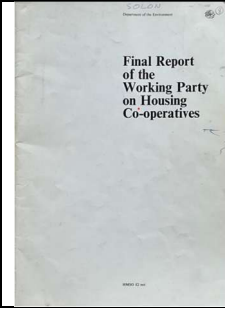

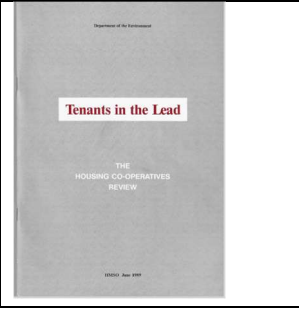

NFHC Constitution – finally registered 1984. Background deliberations.

NFHC AGM, Conference, Committee and Sub-Committee minutes ([Staffing Sub-Committee found!](#))

NFHC Conference and training events. Flyers particularly welcome.

NFHC consultations and your responses

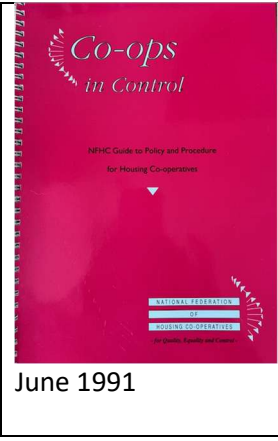

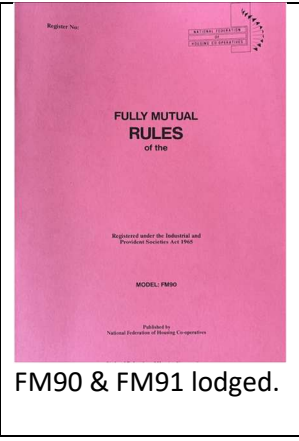

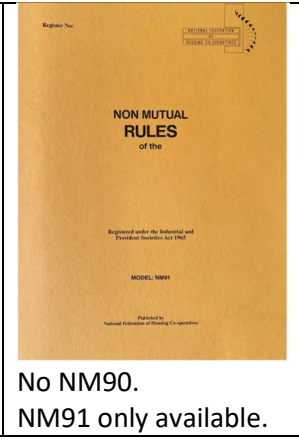

NFHC submissions to Government and Housing Corporation consultations

	This final report and circular 8/76 will be available in the archive. Although obviously not our documents, we can make available online if useful.		Please see Tenants in the Lead for the brief, the recommendations and a long list of those who responded to the Review. Are there any copies of your responses still out there ... ?
---	--	--	---

NFHC responses to proposals for legislative change.

In particular, I remember securing an amendment to what became the Housing Act 1988 which permitted large scale voluntary transfers out of local authority into housing association ownership. As a result, tenant management co-operatives entered the statute books with their own legal status to ensure that Co-operative managing agents had the right to determine what happened to the homes they managed. TMC's had a legal status for a whole 5 years until the Right to Manage for tenants of council housing came along in 1993-4 and extended management rights to organisations with people who were not tenants or prospective tenants on their committees and boards.

NFHC Publications

 June 1991	Housing Co-ops Directory 1989 I couldn't access to check so from memory c.650 down from over 700 co-ops nationally after a rigorous cull of those we hadn't heard from. Over 250 had affiliated for 1989.	 FM90 & FM91 lodged.	 No NM90. NM91 only available.
--	---	---	--

The NFHC's rules were a major departure from those available for co-ops previously. Is any co-op still on NFHC rules? Is any co-op on NFHC rules still general meeting run? We'd love to hear from you!

TENANT MANAGEMENT CO-OPS & s16 Agencies

The **NFHC Tenant Management Training Group** for Secondary/s16 agency staff introducing co-operative management to local authority estates. We have no records.

3 modular management agreements and accompanying guidance:

			Published by the NFHC October 1990. Full copy in the archive. All feedback welcome. Any consultation responses from the those listed would be amazing.
			Building on the learning of the local authority modular but published in 1994 by the NFHA after the NFHC's demise. Any documents or feedback anyone?
		This one followed our learning with the same team plus a Priority Estates Project member.	Also 1994. DoE sufficiently confident to publish our output through HMSO with guidance published separately!

And course, photos and memorabilia of any of the above.
